

Colour Theory & the Taskko Prototype

Competitor palettes · 60-30-10 · harmonies · temperature

Umar Ahad Uddin Ahmed Usmani (SAP 60199)

Muhammad Sharjeel (SAP 59385)

Riphah International University · 20 June 2026

Four colour-theory tasks, applied to Taskko

1 • Competitor palettes

Extract the colour palettes of two competitor apps (Habitica & Forest) with Adobe Color.

2 • 60-30-10 schemes

Re-skin the Taskko Home screen in each palette using the 60-30-10 ratio.

3 • Five harmonies

Apply monochromatic, complementary, split-complementary, analogous & triadic harmonies.

4 • Temperature

Render warm, cool, neutral & achromatic versions and match them to app types.

Adobe Color + the 60-30-10 rule

We used color.adobe.com in two modes:

Extract Theme from Image

Upload a competitor screenshot; Adobe Color samples 5 representative swatches and gives the hex codes.

Colour-wheel harmony rules

Set Taskko's base hue (197°) and switch between the 5 harmony rules to generate each palette mathematically.

The 60-30-10 rule

60% **Dominant / background**

30% **Secondary**

10% **Accent**

Two competitors, extracted with Adobe Color

Habitica

stylized habit 8: to do DDC - purple dominant with bright DDC stat colours

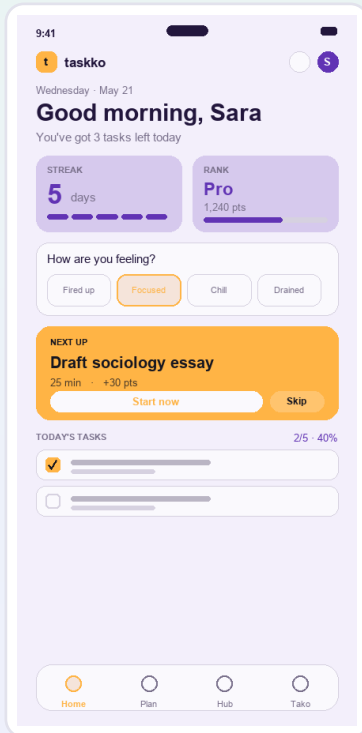

Pale lilac	Brand purple	Task blue	Health red	XP gold
#F3EFFB	#6133B4	#2995CD	#F74E52	#FFB445

Forest

#F3EFFB	#6133B4	#2995CD	#F74E52	#FFB445
Pale mint	Forest green	Deep pine	Leaf	Coin gold
#EAF3EC	#3E8E5A	#1E5631	#7BC47F	#F4B400

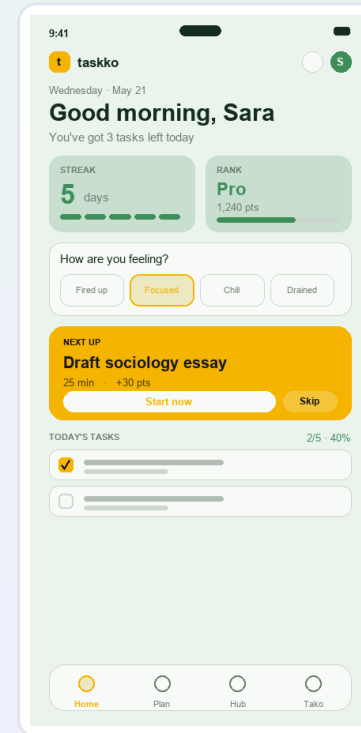

Each palette mapped onto the Taskko Home screen

Habitica skin

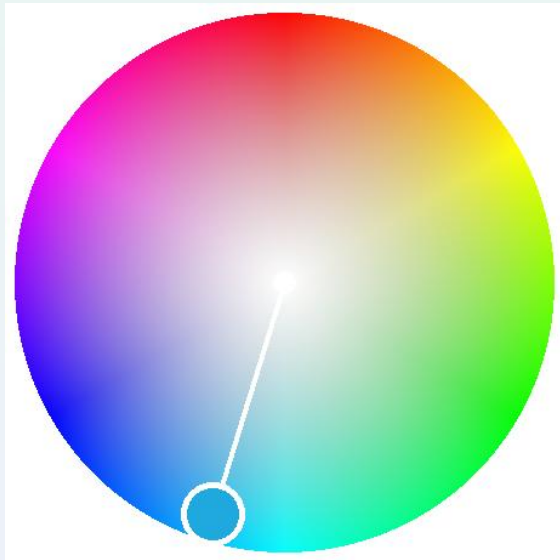

60% lilac · 30% purple · 10% gold accent

Forest skin

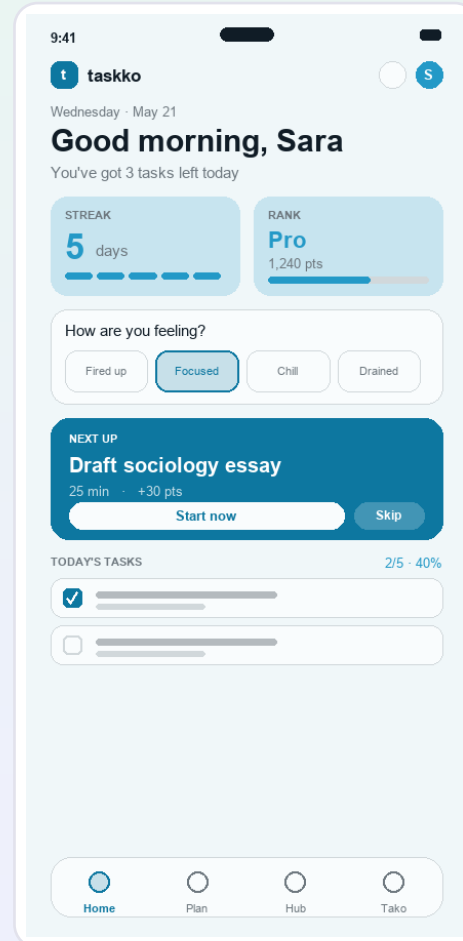

60% mint · 30% green · 10% gold accent

Monochromatic — 197° only — tints & shades

Tint	Light	Base	Shade	Dark
#E4EDF1	#88C5DD	#26A6D9	#0E7EAA	#065574
#E4EDF1	#88C5DD	#26A6D9	#0E7EAA	#065574

Adobe Color harmony palette

Applied to the prototype

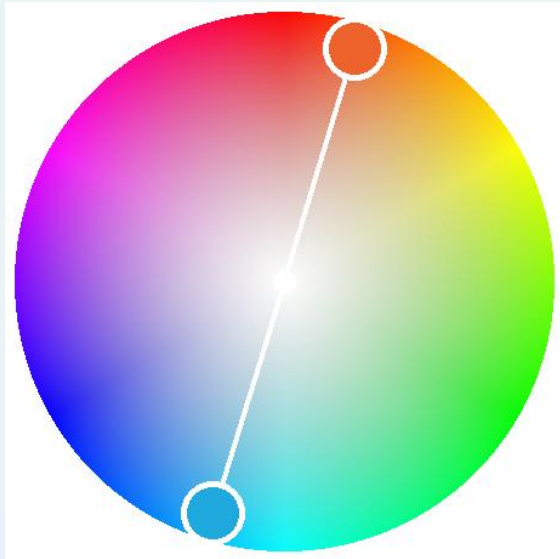

One hue in many tints and shades. Calm, cohesive, very low visual noise.

Note:

Trade-off: low contrast, so the darkest shade carries the CTA.

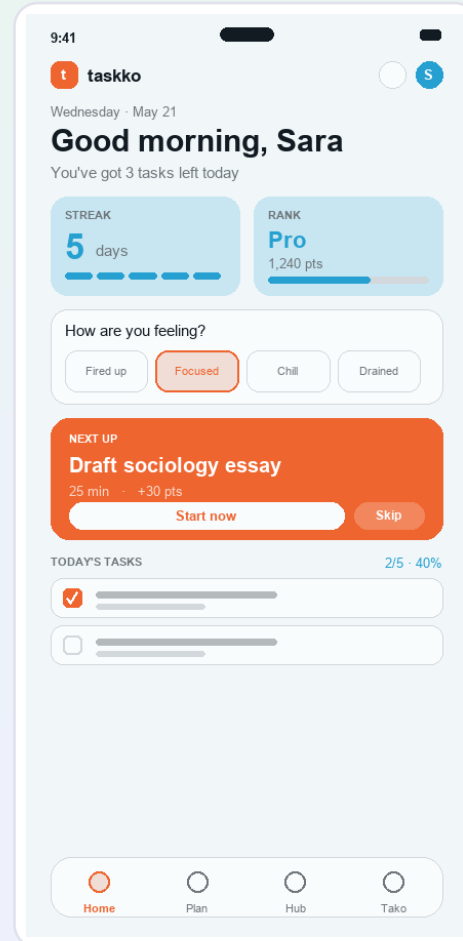

STEP 3 · HARMONY 2 OF 5

Complementary — $197^{\circ} + 17^{\circ}$ (opposite)

Tint	Base 197°	Shade	Comp 17°	Comp tint
#EBF2F4	#25A0D0	#0D77A0	#EE652F	#EBBFAD
#EBF2F4	#25A0D0	#0D77A0	#EE652F	#EBBFAD

Adobe Color harmony palette

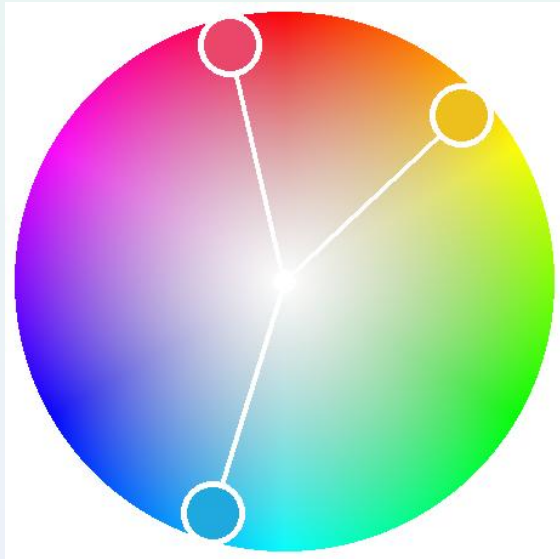

Applied to the prototype

Base blue + its opposite, warm orange. Maximum contrast — the hero pops hard.

Note:

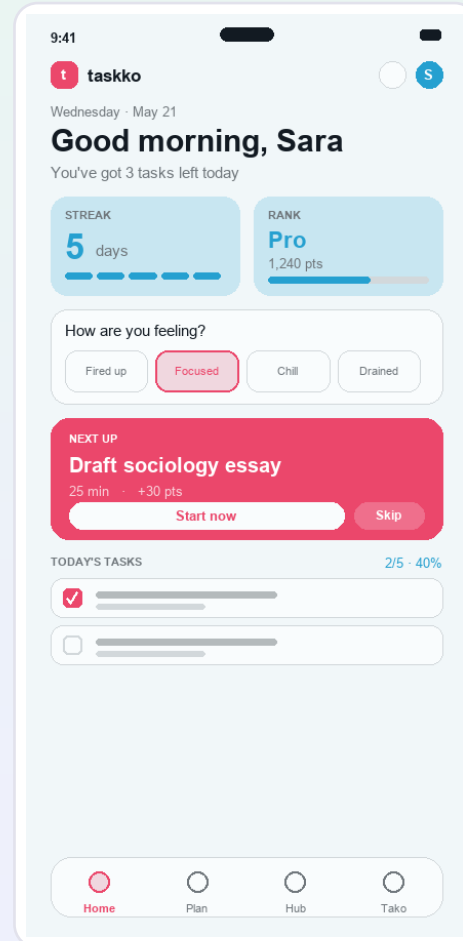

Great for one strong CTA; use sparingly to avoid vibration.

Split-Complementary — $197^{\circ} + 347^{\circ} + 47^{\circ}$

Tint	Base 197°	347°	47°	Shade
#EBF2F4	#25A0D0	#EB476B	#EDC01D	#0D77A0
#EBF2F4	#25A0D0	#EB476B	#EDC01D	#0D77A0

Adobe Color harmony palette

Applied to the prototype

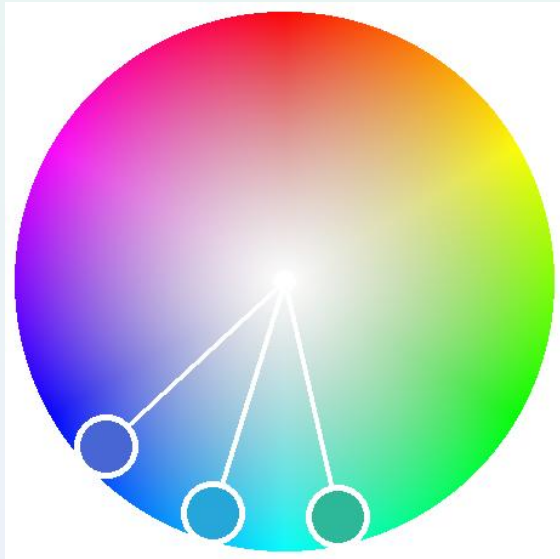

Base + the two hues beside its complement (rose & amber).

Note:

Complementary contrast, but softer and with two accent options.

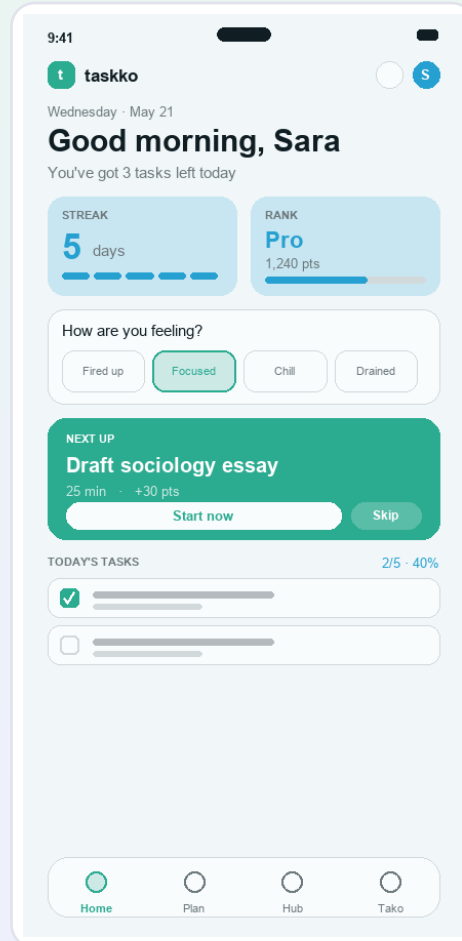

STEP 3 · HARMONY 4 OF 5

Analogous — $167^{\circ} + 197^{\circ} + 227^{\circ}$

167° tint	167°	197° base	227°	227° tint
#88DDCA	#2DB496	#25A0D0	#4967D4	#ABB7E3
#88DDCA	#2DB496	#25A0D0	#4967D4	#ABB7E3

Adobe Color harmony palette

Applied to the prototype

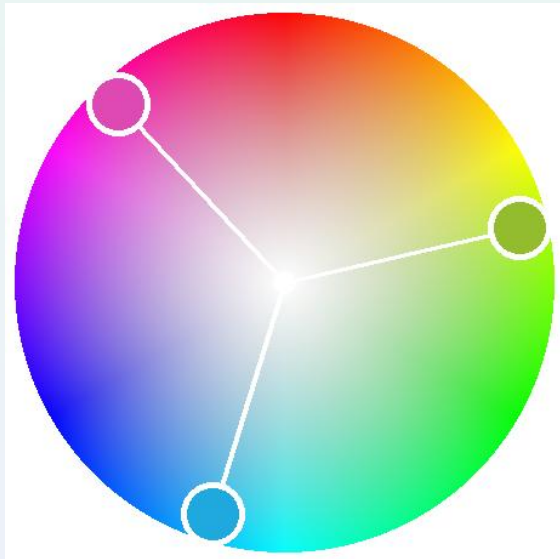

Three neighbours: teal, blue, indigo. Very harmonious and serene.

Note:

Ideal for a focus app; accents stay subtle and restful.

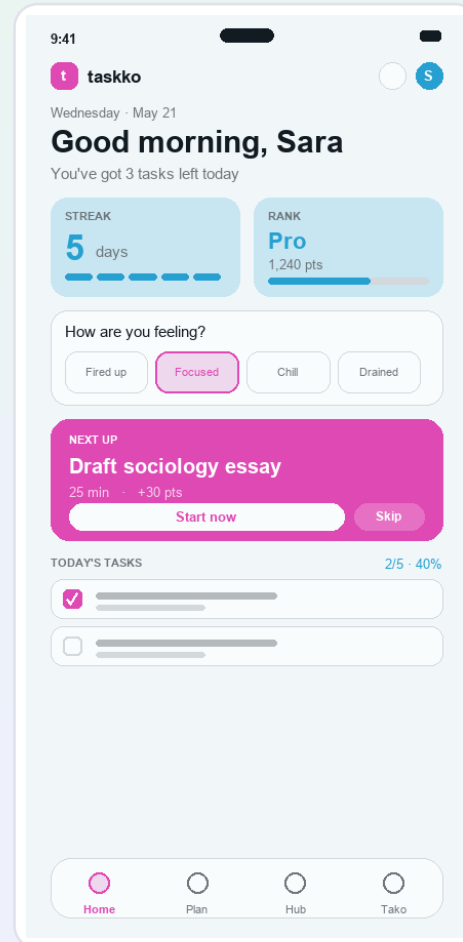

STEP 3 · HARMONY 5 OF 5

Triadic — $197^{\circ} + 317^{\circ} + 77^{\circ}$

Tint	197°	317°	77°	Shade
#EBF2F4	#25A0D0	#DF49B4	#94BC2F	#0D77A0
#EBF2F4	#25A0D0	#DF49B4	#94BC2F	#0D77A0

Adobe Color harmony palette

Applied to the prototype

Three evenly-spaced hues: blue, magenta, lime.
Vibrant and playful.

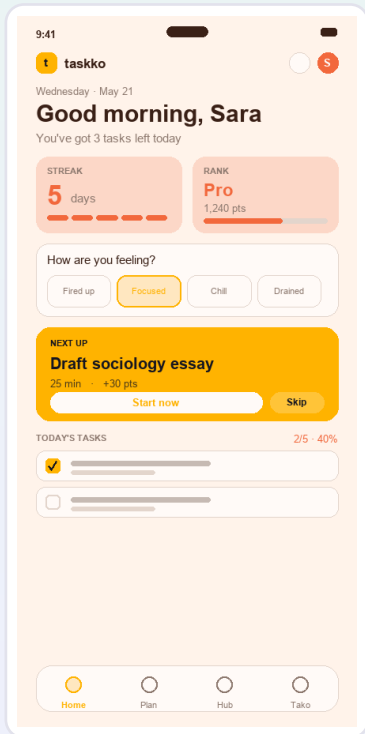

Note:

Fits the gamified side; keep blue dominant to avoid chaos.

STEP 4 · TEMPERATURE (WARM & COOL)

Matching colour temperature to the app type

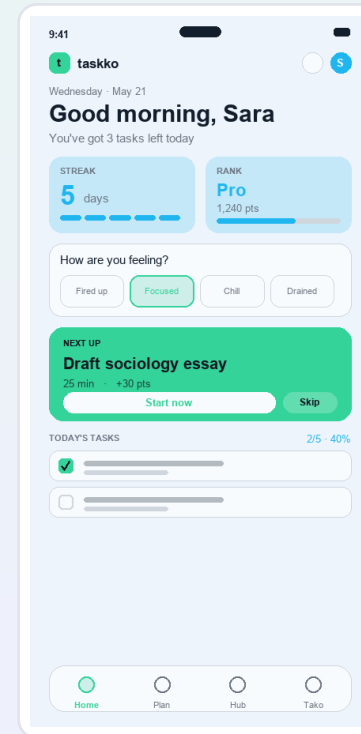

Warm colours

Energetic, urgent, motivating. Best for food, fitness, sales & high-energy social apps.

Cream	Amber	Orange	Red	Terracotta
#FFF3EA	#FFB300	#F2683C	#E23E57	#B23A1E
#FFF3EA	#FFB300	#F2683C	#E23E57	#B23A1E

Cool colours

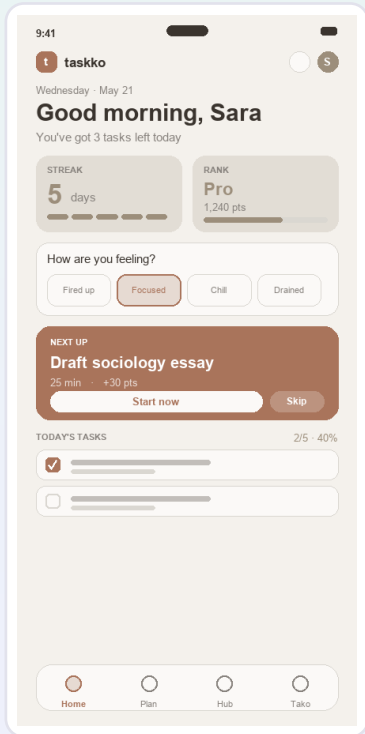

Calm, trustworthy, focus-promoting — Taskko's real base. Best for productivity, finance & learning.

Ice	Sky blue	Mint	Indigo	Deep blue
#EEF4FB	#1FB6F0	#34D399	#6C5CE7	#0E5E8A
#EEF4FB	#1FB6F0	#34D399	#6C5CE7	#0E5E8A

STEP 4 · TEMPERATURE (NEUTRAL & ACHROMATIC)

Matching colour temperature to the app type

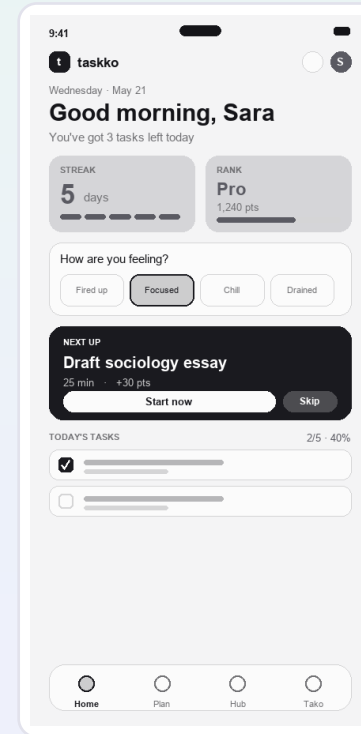

Neutral colours

Minimal, mature, low-fatigue. A quiet canvas. Best for reading, journaling & lifestyle apps.

Sand	Stone	Taupe	Sage	Clay
#F4F1EC	#D8CFC2	#9C8E7B	#7A8B7F	#A9745B
#F4F1EC	#D8CFC2	#9C8E7B	#7A8B7F	#A9745B

Achromatic colours

Black, white & greys — pure contrast & hierarchy. The accessibility baseline.

White	Light grey	Grey	Dark grey	Black
#FFFFFF	#C9C9CE	#9A9AA3	#5A5A62	#1A1A1F
#FFFFFF	#C9C9CE	#9A9AA3	#5A5A62	#1A1A1F

CONCLUSION

The recommended scheme for Taskko

Taskko is both a focus app (wants calm) and a motivation app (wants energy). The exercise points to one recipe that balances both:

Cool base (60–30%)

Sky-blue for a calm, trustworthy, focus-friendly core.

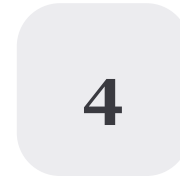

Warm accent (10%)

Peach/gold on the hero, streaks & rewards — a split-complementary pairing.

Neutral background

A near-white, lightly-tinted canvas keeps long sessions low-fatigue.

Achromatic baseline

Design reads in greyscale first — guaranteeing contrast & accessibility.

Matches Taskko's real tokens —

Taskko — Lab 13: Colour Theory
#1FB6F0 sky-blue · #FF8A65 peach · neutral background.

LAB 13 · COMPLETE

Colour theory, applied end-to-end

Two competitor palettes · 60-30-10 skins · five harmonies · four temperatures —
all applied to the Taskko prototype.
